

British Youth Is Victim of Swamps Paryguayan Chaco

(By Associated Press.)
Buenos Aires, Oct. 26.—It is feared that Audley Heron Gosling, 17 year old son of Cecil Gosling, British Charge d'Affaires to the Czechoslovak Republic in 1918, is dead in the wilderness of the Paraguayan Chaco. The boy left Buenos Aires in August for a hunting expedition into the Chaco with some friends. One morning, before breakfast, he picked up his rifle and said that he was going on a short walk for game. When he failed to return, the Indian guides with the party followed his trail for miles into the densest part of the Chaco but neither they, nor any of the expeditions which have later scoured the country, have found any trace of the boy. The day was cloudy and, it is believed, that, perhaps in pursuit of game, he lost his bearings. Instead of returning into the camp, he plunged into an almost trackless country, devoid of water. At one place, a tree was found which he had evidently climbed to find out where he was. Although it is believed that he is dead, a search is being made for him by the missionaries and Indians of the region.

HORRAY, KIDS! BIG CIRCUS ON ITS WAY TO PALATKA

Advance cars, with their complement of billers, agents, contracting for supplies and railroad accommodations; special advertising men engaging space for banners, and publicity men are passing through the city blazing the way for the coming on Monday, October 31, to Palatka, of Howe's Great London Circus and Van Amburg's Trained Wild Animals, the new big merger of established white top organizations. It will not be long before the four all steel trains of the big show stream into the city and all the familiar activities of the circus will be with us—and many that are not familiar, but none the less attractive for all of that. For the Howe-Van game and in addition there is intense professional jealousy which doubtless will provide many a thriller for the spectators. The Mexico City bullring seats 23,000 with accommodations for 5,000 more if they care to stand.

NEWS OF THE STATE

By Associated Press

FLORIDA'S CAPLE CONNECTION

Key West, Oct. 26.—The coming of the telegraph to Key West incident to the construction of the first cable between the United States and Cuba, was outlined by John W. Adkins, in a recent address before the local Rotary Club.

The first cable was laid in 1867, Mr. Adkins said, between Key West and Havana, a distance of 125 nautical miles. Key West was connected with the mainland by cable east Punta Rassa. An uncertain land wire was strung through wooded sections of Lake City, where contact was established with the Western Union.

J. A. Scrymser, a veteran of the Civil War, first conceived the idea of connecting the two countries, Mr. Adkins related. The work was carried out by the International Ocean Telegraph company. The first two years of operation of the Havana-Key West cable proved unsatisfactory, according to Mr. Adkins, and in 1896 a second cable was laid. In 1873 a third cable was laid, and another added in 1898, followed by the fifth and last cable in 1917. Of the five cables elaid three are now in use, Mr. Adkins told the Rotarians.

The first message sent on the line, now in the possession of Mr. Adkins, was addressed to General Smith, president of the International Ocean company at New York and signed by W. E. Everett. It read:

"Thanking all good fortune and forgetting bad ones, we have just landed and temporary connection made. Monday will make all right. Don't you want to send first message to Captain General?"

Only four cables were laid between Key West and Punta Rassa, according to Mr. Adkins, and only one of those cables is in operation today. In 1898 a cable, containing three conductions, was laid between Key West and Miami. According to Mr. Adkins, the population of Miami at that time was about 800.

HOW PALM BEACH BANKS GROW

West Palm Beach, Oct. 26.—Bank deposits in West Palm Beach have increased from \$319,169.95 on July 1, 1909, to approximately four and a half millions at present, says a writer in the West Palm Beach Post, in dealing with the banking progress since Palm Beach county was organized in 1909. The number of banks has increased from one to three and the fourth is building. The number of banks in the county has increased from one in 1909 to nine at present. A building to quarter the Kelsey City Bank and Trust company has been completed at Kelsey City and the bank is expected to open its doors at an early date. In addition to three banks now doing business here, Lake Worth has three, while Boynton, Delray and Stuart have one each.

These institutions do not include the building loan associations and similar institutions. MAKES LONG BIKE TRIP
Miami, Oct. 26.—George McLaughlin, of Atlantic City, N. J., has arrived here to spend the winter and because of the high cost of riding on the railroads made the trip on a bicycle, traversing the 1,496 miles in eighteen days and walking only twenty-two miles of the way because of sandy roads. The greatest distance traveled by the cyclist in one day was the 116 miles between Jacksonville and Daytona.

FATHER AGAINST SONS
Miami, Oct. 26.—A father pitted against his two sons, the father as the prosecuting attorney and the sons as counsel for the defense, was an interesting feature of the trial here last week in county criminal court of Jesse Underwood, negro, charged with assault with intent to commit manslaughter. W. H. Price appeared for the state and his sons, Municipal Judge T. E. Price and Clinton Price, for the defendant. Underwood was convicted.

Lumberjacks Back to Dollar Per and Ten Hours a Day

Toronto, Oct. 26.—Canadian lumberjacks have moved back to pre-war wages with one stride. Lumbering concerns in northern Ontario and Quebec are paying them \$1 a day and their board and report that they will be able to operate on a larger scale than was considered possible a few months ago, says a dispatch to the Toronto Globe. Last year skilled workmen in the lumber camps received from \$80 to \$70 a month and their board.

The reduced cost of production is expected to stimulate building operations which have been halted by high lumber prices despite a housing shortage throughout the dominion.

For \$1 a day, the lumberjacks work 10 hours in the open frequently with the temperature 10 to 20 degrees below zero and they subsist on the plainest of fares.

Amburg circus carries in every department things new to the show lot—from motor and electric contrivances to its three-ring, two-stage, two steel arena performances; from its portable folding grandstands to its lengthy, impressive and novel street parade.

The canvas city of the combined circuses covers eleven acres of ground. There are eleven hundred people, five hundred and fifty horses and four hundred animals with the show. There are nineteen elephants, all of them performers of merit, while the famous Van Amburg trained wild beasts furnish thrills in proper circus abundance.

Why not join the Florida Citrus Exchange?

Other means of marketing fruit having failed to yield uniformly satisfactory returns

Why not join the Florida Citrus Exchange?

Experience having shown that speculators lack in regard for the growers' interests—

Why not join the Florida Citrus Exchange?

Since the growers are entitled to know where their fruit sells, when, to whom and for how much money—

Why not join the Florida Citrus Exchange?

Because the only way to make an institution better is to get on the inside and assist in running it—

Why not join the Florida Citrus Exchange?

Inasmuch as co-operative marketing is based on the principle that the growers together have the ability to handle the selling of their products—

Why not join the Florida Citrus Exchange?

Since the need for the growers' own organization is greater today than ever before and since its efficiency may be increased by every additional member—

Why not join the Florida Citrus Exchange?

Will you not agree that the Florida Citrus Exchange has accomplished much and that to join NOW would give the organization the benefit of your experience and judgment? For information as to membership consult the manager of the nearest association or sub-exchange, or write to the business manager at Tampa.
